Summary

I'm a senior Front-End Web Development.
I work with the latest techniques to create clean, clear, and easy-to-reuse code.

my experience:
✔ Designing and coding a complete website from scratch using (.HTML, CSS, JavaScript, Bootstrap, jQuery).
✔ Converting a design from (PSD - XD - Figma) to a professional (HTML) code.
✔ Make websites responsive to all screens.
✔ Designing landing pages professionally.
✔ Modification to a ready site.
✔ Using CSS3 properties (animation, Flex, Grid,..etc.) for the site to show it in a unique and distinctive way.
✔ Use JavaScript Framework: React.js and Vue.js.
✔ Use of help library such as (swiper, mixitup, owl carousel,..etc.)
